Some examples of projects I did as a freelancer

- www.kantinatisannoulas.gr   A full webGl experience that was created with Three.js , JavaScript. All the models were created with Blender and Figma was used for the design of the website
- https://dfdwebsites.github.io/scrimba-project/ A React project showcasing scrimba's course. React.js, JavaScript, express, socket.io (last 2 since there is a multiplayer game inside the project)
- http://legomania.herokuapp.com/ A React Ecommerce project. A simple UI e-shop using react-bootstrap. React-Three-Fiber and Three.js was used for the 3D aspects of the site. Node.js , Express, mongoose, MongoDB some of the tools used for the Backend side of the shop

additional skills

- Working knowledge of Figma, Blender
